

Stitching Modes

Regulated

Precise

Your needle will only move when you do and maintains stitching size.

Adjust: SPI - How many stitches will fit in a space.

Great for: Beginning quilters and ruler work.

Cruise

Maintains stitching size, but continues to stitch even if you pause.

Adjust: SPI - How many stitches will fit in a space.

Great for: Tight, curving designs such as pebbling or stippling.

Manual

Stitches at a constant speed. You control the stitch size by moving your machine faster or slower.

Adjust: Speed - How fast the machine stitches.

Great for: Small, intricate designs and following a pantograph with a laser.

Baste

Basting uses large stitches for tacking down the three layers of your quilt

Adjust: Select small, medium or large.

Great for: Tight curving designs such as pebbling or stippling.
